

California Ranch News

Cotton growing in Yolo county is still in the experimental stage.

The planting of persimmons on a commercial basis is increasing in the San Joaquin valley.

Frank G. Beyschlag, El Centro, has been appointed assistant county farm adviser for Imperial county.

A considerable decrease in bean acreage of San Fernando valley, Los Angeles county, is anticipated.

No orchard heaters were used in Coloma district, Eldorado county, during the entire month of March.

Seventy-five per cent of the box fruit space at the Valencia Orange show this year has been reserved already.

A carload of sweet potato seed from New Mexico has arrived in Delhi, Merced county, and is being distributed to farmers.

Stock raisers and dairymen are circulating petitions asking the supervisors to establish a tubercular free area in Shasta county.

The spinach packing season has opened at Manteca, San Joaquin county, with a large crop of first-class material in sight.

While Rhubarb has always been one of the big money crops, there has never been a time when it offered better returns than at present.

Slightly more than 1,000 acres of additional land were included in the Glenn-Colusa Irrigation district, by order of the board of directors.

The co-operation between state and federal officials in the control of predatory animals has resulted in a big saving to sheep men of the state.

Requests are coming to the pomology division of the college of agriculture at Davis for students interested in orchard work for the summer months.

Prospects this year are extremely good for table grapes. This statement was made recently in a summary of the grape market conditions last year.

The boys and girls of Orchard Park district, Tehama county, have organized an agricultural club and manifest an active interest in the work undertaken recently.

At the M. M. Morris ranch, near Sonoma, Sonoma county, 200 new fruit trees have been planted and more than 250 rooted grape vines added to the vineyard.

Lodi, San Joaquin county, fruit growers, say that the high wind during the past few weeks has resulted in a considerable loss to fruit growers and almond men.

Tulare county leads California in hay acreage, according to a recent report of the crop on January 1, with 137,850 acres. Imperial valley comes second with 125,950 acres.

Asparagus shipments from Lisbon, in the Holland district, along the lines of the San Francisco-Sacramento Railroad will be four times as great this year as in 1925.

Reports show smaller cold storage holdings of frozen poultry, meats and creamery butter and larger stocks of eggs and eggs on March 1, compared with March 1 a year ago.

The newly plum louse, which has in the past caused considerable damage in orchards in Placer county, can be effectively controlled this year by the use of sprays at the proper time.

A. R. Lo'gram, who recently bought the T. S. Stiles ranch in the Plaza district, Glenn county, is making preparations to plant a large tract of land to tomatoes to supply the local demand.

There is no cause for alarm over talk of a water shortage in the Oroville district, Butte county, says the engineer for the Oroville-Wyandotte and Thermalito-Tule Mountain Irrigation districts.

Apparently the long considered plan of buying lime sulphur in cars and storing it for spraying use as occasion demands, is to be put into effect by citrus and deciduous fruit growers of Tulare county. Thousands of gallons of lime sulphur are used each year and buying in bulk will result in a material reduction of cost to the growers. It is believed that about \$2 per spray tank will be saved to deciduous growers, while the saving to citrus men may be a bit less. It is not yet decided from what source the spray will be purchased.

Golden State News of Interest to All

The El Dorado chapter of the Order of De Molay was instituted in Placerville, recently.

Fall River Mills, Shasta county is to have a three-story hotel building costing \$50,000.

The residents of the city of Watts, recently voted 1,338 to 595 to annex the city to Los Angeles.

Elaborate plans are under way for the roundup to be held at Red Bluff, Tehama county, April 24 and 25.

The officers of the four Rebekah lodges in the forty-eighth district met in Lodi, San Joaquin county, recently.

Roseville building permits for the month of March numbered forty-nine with a total expenditure involved of \$44,000.

The enrollment this year of women students in the College of Law at Berkeley is the smallest on record for five years.

Arbuckle, Colusa county, will be the host to all of Northern California on May 15, when the town will celebrate its Golden Jubilee.

May 8, has been definitely fixed as the date of the celebration marking the opening of the new hotel in Willows, Glenn county.

Otis Clark, 89, a native of Ohio, who crossed the plains to California in an emigrant train in 1864, is dead at Yuba City, Sutter county.

J. H. Gallagher, Coloma, Eldorado county, resident, has made possible the construction of a community clubhouse by a gift of a large lot 80 by 200 feet.

The state highway commission has taken over the old stage road to Lake county out of Calistoga and has men and tractors at work putting the road in condition, preparing to pave it.

A strenuous and united drive will be waged in the San Joaquin valley this year to rid its agricultural lands of puncture vine, which threatens destruction of crops on a wholesale scale.

The Tulare County Poultry and Pet Stock Club is completing preliminary plans for an auspicious egg-laying contest to continue one year, with suitable rewards to owners of winning birds.

Construction of a memorial to General John Bidwell, one of the earliest white men to visit the region now comprising Glenn county, is projected by the Willows parlor of Native Daughters.

According to the records of the San Francisco Convention and Tourist League, the largest convention to be held in San Francisco this year will be the Lions' international sessions July 19 to 24.

Announcement is made, following a survey of the hop yards of Sonoma county, that on account of the weather the hops are probably ten days ahead in development over the normal at this season of the year.

Two ten-pound boxes of cherries were shipped recently from Lodi for Chicago as Lodi's first cherry shipment of the year. Last year it was April 15 before the first box of cherries was ready for shipment.

With a \$40,000 school building completed but a month ago, members of the Oroville, Butte county, Southside Parent-Teacher association are asking the board of education for an addition of two rooms to the building.

Plans for the building of the new Ryde, Sacramento county, substation, which were announced early this year have begun to materialize and a crew of fifteen men are engaged in the preliminary construction work.

Municipal ownership of public utilities has strong advocates among the property owners of Roseville, where the low tax rate of \$1.10 is made possible by the spinning returns of the municipally owned lighting system.

Characterizing the dirty and hidden motor vehicle place as "a favorite resort of the auto bandit," the state motor vehicle department has ordered all traffic officers in California to arrest motorists who refuse to clean up their plates.

After a long period of concentrated effort by civic organizations, public-spirited individuals and city planners, Santa Barbara, is beginning to demand the attention of the country for the harmonious architecture of its buildings.

A. R. Felch, state building and loan commissioner, declared in an order issued in San Francisco that building and loan associations in California must keep their business entirely separate from associated or subsidiary corporations.

The Women's Civic club of Alturas, Modoc county, purchased a lot and residence and will tear down the old residence now located on the property and will build an up-to-date building which will house club rooms, banquet rooms and a dance hall.

Congressman Free Will Be Honored

Californians in Washington will honor Congressman Arthur M. Free of San Jose with a banquet at the Hamilton Hotel on the evening of April 17th. The affair is given under the auspices of the California State Society, of which Free has been the President for two years.

Former Congressman James H. MacLafferty of Oakland, now Assistant to the Secretary of Commerce, will be the toastmaster. Several members of Congress will speak.

Free has been a tireless worker for the California State Society and has been principally responsible for the growth of the society during his term of office. Harry F. Ashion, Chairman of the Social Committee, is in charge of the arrangements.

Federation Party

The Foothill Federation of P. T. A. will celebrate their first anniversary with an evening party at Cupertino de Ora Club House in Cupertino, April 17th.

There will be tables for cards and other games and a fine, string orchestra will supply music for dancing. Delicious home-made cakes and coffee will be served.

Especially do the members wish to invite all young people who would enjoy spending an evening of such pleasure with their elders. If you like games, dancing, or good things to eat in pleasant wholesome surroundings, come and have them all for a small admission fee.

Each association is doing its part to make the event a grand success socially as well as financially and the local association extend a cordial invitation to all who are interested in the work to attend and to bring their boys and girls of High School age.

Let this year's observance of the day have the hearty good will of all P. T. A. workers.

United States District Attorney George J. Hatfield of San Francisco, recently secured an important ruling from the United States District court. The court held that protection of the Fourth Amendment against searches without a search warrant did not extend to farms; and that where prohibition agents while on farms apprehend the fumes of distillation coming from a house in which they can observe the occupants moving around they can place the occupants under arrest and make a search of the house under the control of the occupants on the theory that they are making an arrest for a felony committed within their presence. This decision will greatly aid prohibition agents in apprehending operators of illegal stills who have heretofore sought to throw a cloak of protection around their operations by operating their stills in dwelling houses on isolated farms.

People may brag as they will about the home-grown American shamrocks but J. R. Collins, of Manteca, San Joaquin county, claims to have backed the Irish national flower off the map in the discovery in his garden of a beautiful pink rose, in the center of which were two vivid green buds. He says it is the real "wild Irish rose" and he intends to try propagating the bush that produced the novelty for use at future year St. Patrick day's celebrations.

In California, the land of romance, there are few cities which have a more interesting and entertaining history than has Hanford, in the center of the vast San Joaquin valley. The pretty little city, county seat of Kings county, is on a site ranged over half a century ago by bands of elk and antelope, and which is today surrounded by highly cultivated raisin vineyards, fruit orchards and vast acreage of dairy farms.

While no definite plans have yet been formulated, it is expected Yosemite's Diamond Jubilee Year will be celebrated with a fitting pageant arranged so as to co-ordinate with the celebration of the opening of the new Yosemite all-year highway up the Merced River Canyon and the completion of the first fifteen miles of paved road in Yosemite valley, both expected to be finished about August 1.

Auto stage service between Manteca and Oakland and Manteca and Sacramento is to be considerably increased, according to announcement made by the California Transit company. Several new stages are to be added to the service to care for the summer travel, and there will be extra cars from here to Oakland and to Stockton. The time table has been changed completely.

CAMPBELL CHAMBER PLANS FOR FLOAT

A large attendance greeted President Hedegard when he called the Chamber of Commerce to order Monday evening. By the report of the finance committee more than \$50 was on hand from the Old Settlers celebration and this will be held by the treasurer toward next year celebration fund. Arrangements are under way to secure a short visit by the National Editorial association following the convention in the south.

The beautification committee recommended the painting of the over head "Campbell" sign on east Campbell avenue the planting of trees and vines along the creek bank; a clean-up about the electric car station and S. P. park.

These matters were referred to the Public Improvement committee. J. F. Wehmeyer reported that bid for paving Central avenue would be opened by the county board, May 3rd.

Mr. Malcolm Frazer of the Rose Fiesta was present and gave an interesting talk on parade and floats offering suggestions on the Campbell float.

To select a candidate for queen of fiesta, D. H. Cramer, I. R. Abbott, Mrs. L. S. Milber and Mrs. E. K. Kennedy were appointed by the chair. These will select the fifth member of the committee.

The float committee was enlarged by the appointment of several men to do the heavy work of the job.

It was reported that a petition is being framed for circulation petitioning the supervisors for the westward extension of Campbell Avenue.

GO. JUNIOR COLLEGE

At the merchants luncheon Wednesday noon, D. H. Cramer, principal of the high school, in a short talk of the Junior College movement set under way at a meeting in San Jose recently.

Everyone of the nine high school districts were represented by principal and board members, Campbell being the only one with 100% representation. At present the average daily attendance at the Junior College held at San Jose teachers college is 358 which has shown the big demand for such a school. Petitions will be presented to the County supervisors calling for an election at August primaries, whereby the electors may vote to form a County Junior College. By the law the state and county would each pay \$100 per pupil per year, creating sufficient funds to continue the work so well begun.

The average age of high school graduate is 17 years and by creating a Junior College these adolescent youth may remain at home for two more years while taking college work. There is also some talk of colleges doing away with the first two years work thus throwing all that schooling to the Junior colleges.

GEO. R. STRAY WEDS

Cards have been received announcing the marriage of Helen Orta Clark and George Rose Stray, Saturday, April 10th, at Schenectady, N. Y. They are coming to Campbell for a visit, making the trip by boat from New York through the Canal.

Mr. and Mrs. W. H. Stray, who had gone to Michigan, went on east and attended the wedding.

Ralph Brown, son of Mrs. Mary Brown, was seriously injured last week when the oil truck which he was driving became unmanageable and went off the La Honda grade. He is in the hospital at Redwood City, where examination disclosed a broken leg and three ribs torn loose.

CLUB PREPARES FOR ANNUAL FESTIVAL FOR CAMPBELL LIBRARY BENEFIT

REV. FARR INJURED IN AUTO CRASH

Rev. F. C. Farr was the victim of an automobile accident last week in which he received a blow on the head that rendered him unconscious for a moment, seriously affecting his nerves and from which he has not completely recovered yet.

He was coming west on Hamilton Avenue, where it dips down into the old creek bed at the H. G. Keessling ranch and saw a machine just starting down the opposite hill toward him. As he said in a flash he felt that he would be struck so turned off the pavement on the right side clear to the fence and had just come to a stop or practically so when the other machine crashed into him. The machine was driven by young Lupton and the next he remembers was one of the children from the other car standing on his running board asking if he was much hurt.

Friends of the young driver were summoned and assisted Mr. Farr to his home. His car was badly damaged but just what settlement will be made has not been determined. Of course the trouble was due to the speed at which the youth was going making it impossible for him to take the curves and keep to his own side of the road.

The Methodist pulpit was occupied Sunday by Rev. G. W. Southwell of San Jose, as Rev. Farr was not sufficiently recovered to preside. In the evening the young people of the Epworth League had charge of services.

CAMP FIRE DAY IN CAMPBELL

In this day when it is fashionable to have days for different events such as Old Settlers Day, Blossom Day and Prune Day, etc., next Saturday Campbell will be treated to a new kind of a day which will be Girls Day. When the citizens of Campbell see the streets just lined with hundreds of girls they may wonder what it is all about. This is the answer. It is Camp Fire Girls Play day and they have selected Campbell as the favored location for the event this year. The four Campbell groups will act as hostesses to the other groups of the County.

Miss Howes of the High School faculty, Miss Florence Stahl of the Theodore Roosevelt, Jr., High, Miss Gladys Phillips of Willow Glenn, acting with Mrs. Lewis Shelley, the County Executive, have worked out a schedule of events that will keep the girls busy and active the entire day.

The citizens of Campbell that are interested in the girls' activities will be welcome to come and witness some of the thrilling contests between the various groups of Camp Fire Girls.

New Restaurant

S. R. Tuttle, formerly in the restaurant business in Monterey, is opening a first class cafeteria and delicatessen in the Ainsley building in Campbell. Mr. Tuttle plans to be open for business about May 1st.

An attractive banquet room for the service of the public is planned where private parties and banquets may be held and patrons assured of comfort and privacy.

This should be a feature of the service for Campbell and is deserving of a liberal patronage by the community.

Mr. and Mrs. Tuttle are new arrivals and a cordial welcome is extended them.

The annual spring fete, held by the Country Woman's Club as the main event of the year for supplying part of its funds for the support and upkeep of the library, the buildings and grounds, will this year be a "Garden Party."

What a delightful picture that brings to mind and when we say that the beautiful grounds and home of Mrs. J. C. Ainsley have been offered for the affair, the attraction should be irresistible.

The afternoon and evening of Thursday, April 29th, there will be useful fancy articles and novelties and delicious home-made candies for sale as well as card parties.

Hosts or hostesses may reserve tables to entertain friends, or groups of congenial players may arrange for one or more tables each paying his own admission. The committees desire to be notified so that proper provisions may be made. Mesdames G. S. Robinson, E. I. Price, Jas. Turner L. Saunders of Campbell and Mrs. E. E. Pomeroy of Saratoga are in charge for the afternoon and Mesdames W. I. Merrill, L. T. Lenox, W. H. Stray, L. Carboni of Campbell and H. W. Higbie of San Jose for the evening.

In the past two years the public has rallied generously to the support of these spring Festivals, enabling the Country Woman's Club, with the addition of its dues, and a few minor sources, to fulfill its obligations regarding the library.

The question may arise that the library was in the budget of the Community Chest, and it is, but only a portion of the expense is met in that way, and the rest is met by the club. So that the assistance, small or great, of every one, is eagerly welcomed.

Mrs. E. R. Kennedy, who is in charge of the fancy work and novelty table for the Garden Party, April would be very grateful for contributions and would appreciate being notified of what intended gifts so that no one line of articles might be over supplied to the neglect of some others. As there will be no call for food for a food table, donations of this department are especially needed.

P T A MOVIE BENEFIT

At the regular monthly meeting of the High School P. T. A. held yesterday, Tuesday the 13th, it was voted to accept an offer extended the club by our local movie-man to show the popular screen idol, Harold Lloyd, in "Hot Water" at the High School Annex, Tuesday evening, April 20th. One half the door receipts will go to defray school activities and the other half to Mr. Saso.

Another event planned for is a "Salmagunda" party scheduled to take place in the High School gym on Thursday evening, May 27th. Both of these affairs are to reimburse the P. T. A. treasury so as to better enable them to fulfill the promises made at the beginning of the year in the way of social work.

The membership chairman reported a new member, making 61 now enrolled.

Next meeting being a Campfire program, we hope all the 61 members will be present and each one bring a guest. May all the teachers be present to meet these parents.

Remember the dates, April 20, May 11 and May 27th.

Mrs. E. R. Stevens, former resident of Campbell, who with her two children had been here with Mrs. W. F. Grattan a few days is now located in San Jose. After completing some work at the State Teacher's College she expects to resume teaching.

Fiesta Queen Contest Is On

I hereby nominate for Queen of the Fiesta de las Rosas, San Jose, California, May 20-21-22, 1926—

Name _____
Address _____

This nomination entitles nominee to 200 votes. Only one nomination blank will be credited to the total vote of a nominee. Fill out this blank and mail it or take it to Queen Contest Department, La Fiesta de las Rosas Headquarters, 57 W. Santa Clara St., San Jose.

A beautiful Santa Clara County girl is to rule as queen over the Fiesta de las Rosas scheduled to open May 20. This announcement was made by Chairman Buhot of the Publicity, handling the activities of the Queen Contest.

The fortunate one selected for this position will have many honors bestowed upon her,—and in addition, she will have the privilege of appointing the personnel of the Royal Court which will consist of a King, Lord High Chancellor, Prime Minister, Eight Ladies in Waiting, Eight Flower Girls, Five Pages, and the Court Jester.

The winner or queen will be awarded one of the three following prizes:

(1) A round trip to the Hawaiian Islands with expenses paid for a one week visit.

(2) A round trip to the International Eucharistic Congress at Chicago, sleeping car accommodations enroute, and hotel expenses for one week in Chicago.

(3) A round trip to the Sesqui-Centennial Exposition at Philadelphia during June. The Shrine Convention is to be held at the same time.

The winner may choose a chaperon to accompany her on the trip. Chaperon's expenses and railroad fares will be furnished by the committee.

Nomination blank will be found above. Kindly fill out with name and address of your selection, and mail to the Fiesta de las Rosas Headquarters, 57 West Santa Clara Street, San Jose, at once.

The only conditions attached to this are: that the lady must be a resident of Santa Clara County and must not be under eighteen years of age.

CARD OF THANKS

We wish to thank the many friends who have given assistance and expression of sympathy in our recent loss. Mrs. C. D. Cutting, Will Frank, Carl, Theodore and James Cutting.

Having a family to support takes the props from under many a fellow.

If they would modify the liquor they wouldn't need to modify the law.

England Is Planting Trees by the Million

Between now and next spring more than 39,000,000 trees will have been planted in Great Britain. This is the program arranged for the planting season by the forestry commission, which has already been engaged for five years in the work of restoring the forests of England, Wales and Scotland.

Since it began its work, the commission has planted 52,500 acres and assisted local authorities and private owners to plant another 50,000 acres. This has resulted in 184,000,000 trees being planted.

The program, spread over ten years, provides for the planting of 250,000,000 acres with 450,000,000 trees.

Most of the trees planted consist of different varieties of fir and spruce and twenty years from the first planting they will begin to show returns. At present Britain imports 50,000,000 pounds worth of timber each year.—From the Continental Edition of the London Mail.

Lesson in Politics

J. Adam Bede, noted humorist and former Minnesota congressman was in Indianapolis the other day, and in talking with Mayor Samuel Lewis Shank about boyhood days on the farm, Mr. Bede said:

"I well remember getting up on frosty November mornings and going barefoot to the barn to milk the cows. I would get there before the cows were up, and I would kick one of them and make her get up so I could warm my feet in the straw where she had been lying.

"And this was my first lesson in American politics—to make the other fellow get out so the successful aspirant can warm himself in his predecessor's place."—Indianapolis News.

New School of Drama

The University of London will have a new sort of drama and theater school in the theatrical productions of which such actors and producers as Granville Barker, Nigel Playfair, Edith Craig and Basil Dean will play a prominent part. An old gymnasium at East London college has been converted into a theater seating 400 persons and will be utilized for producing Eighteenth century dramas which are little known. No appeal will be made to undergraduate students. All lectures and plays will be prepared with the thought of interesting actors and dramatists.

ASK "US FOLKS" ON "MAIN STREET"

A sort of a mock trial was pulled off by the Senate committee to investigate Prohibition; the natural sequel to the present agitation induced by recent newspaper polls on the wet and dry question.

The trouble with all hearings on a moral question is that the witnesses cloud their testimony with personal opinions. What good to call an avowed wet to testify for the wets, and an avowed dry to testify for the drys?

If the Government wants facts, strip of personal and private views, let it listen to the still small voice of the American homestead where drunkenness is no more. Let it come to the shopping and trading zones of America's "Main Streets" where women and children can pass along without molestation by drunken brawls or stenching odors from hell-hole saloons. Let them go to the savings banks, the life insurance companies, to the farms and factories where the bleary-eyed sot sits but the ghost of yesterday. There will be found the verdict in no uncertain terms. Every wet move brings us that much nearer the old-time saloon, and it is evident that the country wants none of that.

So, Mr. Senator, come out to "Main Street" and ask "us folks" what we think of Prohibition!

Large Floating City in British Columbia

One of the oldest cities on this continent is Simoon Sound, on the coast of British Columbia, says the Pathfinder Magazine. The entire place is made up of floating dwellings. The chief industry in that section is logging, and most of the work is done on the sides of steep cliffs, where it is almost impossible to build a house.

Then, too, the loggers are continually moving to new sites. So they solve their housing problems by building comfortable dwellings of cedar stakes, similar to shingles, only about twice the size and rougher, on log rafts. The loggers live in these raft houses for many years, towing their homes to new sites for logging.

A number of years ago one enterprising logger tied his raft house up at the place called Simoon Sound. As the anchorage was good and the location was shelter from wind gales, he started a store.

Gradually other floating dwellings were added until now steamships make regular calls to the port and the government has established a post office there.

The main street of this floating city has all been connected and considerable city beautifying has been done. Flowers have been planted along the way in old canoes and the storekeeper has a garden in an earth-filled boat. In the winter many new floating houses are added to the city, but they float away again when the loggers go back to logging with the return of good weather.

NATURAL ENOUGH

"Joe's going in for aviation now." "That's not strange. He always did act flighty to me."

Elevators at Niagara

To replace the Beddell stairway leading to the "Rock of Ages" and the "Cave of the Winds" at Niagara Falls, a 200-foot tunnel connecting with a shaft 167 feet deep has been constructed, says Popular Mechanics Magazine.

The shaft was dug straight down from the surface of Goat island and contains two electric elevators, surrounded by a spiral stairway.

The mouth of the tunnel opens directly upon the whirlpool, and a peninsula built of rock removed from the excavations affords a close inspection of the falls. It has been named "Clearwater View." A structure on top of the shaft provides quarters for sightseers as well as space for the elevator apparatus. The new passages did not cost the state a penny, as all funds were taken from fees paid by tourists.

Old People's Town Is Honor to Copenhagen

Where is there a "town" without an inhabitant under sixty-five years of age? This looks like a catch question, but it isn't, for in Denmark in the Old People's Town of Copenhagen, within a great city exists a little one whose town wall embraces just 23 acres, a church, homes and gardens, an assembly hall and even a motion-picture theater. Commenting upon this "town," the American-Scandinavian Review recently called attention to the fact that its distinctive feature is that it has nothing whatever to do with poor relief. Its citizenry live at the expense of the Copenhagen municipality and the only conditions for "citizenship" are that those applying shall have attained a sufficient age and shall never have come under the penalty of the law nor been a pauper. Everything necessary to comfort is provided, even to a weekly allowance for pocket money, and no one loses civil rights or vote by living therein. People of all classes are to be found within its walls, as it is felt that every honorable aged citizen has a right to maintenance without obligation or loss of independence.

Londoners Puzzled

A committee of 18 men, representing the medical association, the metropolitan police and magistrates, has been formed in London, to try to find an answer, through scientific tests, to the question which has been puzzling police courts for years: When is a man drunk? A wonderful variety of opinions have been given.

Woman's Lucky Day

When Mrs. Raymond Adams found a hard object in a chicken's gizzard at Gloucester City, N. J., she said it was a diamond, and her family laughed at her. Their opinion was that it was only glass. Mr. Adams took the stone to a jeweler, who said it was a perfect diamond, worth about \$80. He was ordered to set the gem in a ring.

Old Treasure Trove

The blade of a plow directed by George Golier of Washington, N. J., lifted an earthenware pot from its century-old sanctuary and hurled it on the furrow ridge. Golier picked it up to throw it on a pile of stones. The cover came off and a stream of Colonial coins spilled out. The dates ran from between 1732 to 1766.

Enormous quantities of disinfectants are used every year on the farms in California. Their full value is often lost, however, by improper knowledge of their use or carelessness in application, and considerable money is being wasted under such circumstances.

With the approaching warm months, and the consequent greater hazards in safely and successfully shipping livestock, it is well to bear in mind the many causes of loss and injury to animals which occur between the producer, feeder and slaughterer.

Nothing may appear more remote to the average Californian than Egyptian onions, but the state department of agriculture recently issued a statement saying that these bulbs from the Valley of the Nile are seriously threatening the state's onion industry.

TIME TO REVIEW INVESTMENTS

No matter how carefully your investment securities may have selected, they should be reviewed at intervals by persons competent to pass upon their value. The average investor does not possess either the ability or the facilities for determining for himself the soundness of his securities.

The Mercantile Securities Company of California, affiliated with the Mercantile Trust Company of California, is exceptionally well qualified to judge your financial holdings. April is an ideal month for undertaking this review. No obligation is imposed.

Provision Made for Deaf

The Guild theater in New York is trying to make life more pleasant for those who are afflicted with impaired hearing. There is no hardship in connection with poor hearing which is more difficult to bear than the loss of such entertainment as the theater provides. This theater has equipped a dozen choice seats with vacuum amplifiers. Any individual who is partially deaf may apply at the box office for seats in this section. He is provided with a set of small ear receivers which are connected with inconspicuous boxes attached to the rear of the seats just in front. Microphones on the stage pick up every sound, amplify them by means of vacuum tubes under the stage, and transmit them to the earphones.—Pathfinder Magazine.

The real proof of the pudding is whether it will be good warmed up for supper.

The work of attending to your job hurts you less than your conscience for not attending to it.

An easy way to increase farm profits

Ninety-three per cent of all makes of automobiles now come equipped with Alemite or Alemite-Zerk high pressure lubrication.

Formerly the average life of an automobile was only three years. Today the average is six years. Alemite lubrication has done much to make this possible.

Alemite is just as good for farm implements. It adds years to their service. Cuts your costs per crop. Increases your profits.

You can replace every grease cup on the farm with an Alemite fitting. Let us show you how it will save you time, labor and money.

CONGL CHURCH NOTES

Next Sunday the usual services
will be held. Bible School at 9:45
with classes for all ages.

Church service at 11:00 with
sermon by the pastor on "The
Lost Word."

At the evening service the
two "Church fathers to be con-
sidered are Count Zinzendorf and
John Wesley. The papers will
be given by Mr. and Mrs. H. C.
Smith. On April 25th, one week
from next Sunday evening, there
will be a most interesting stereo-
type lecture on "The Transfor-
mation of the Alaskans" with 88
colored slides. This lecture will
be given by Mrs. Olga Weiss,
who will speak out of her own
knowledge having been born in
Alaska and having traveled over
much of the country.

Another meeting which will be
of interest is to be held on May
5th. This is the annual meeting
of the "Santa Clara Valley As-
sociation" of Congregational
churches. This will include dele-
gations from all the churches
from Pacific Grove to San Mateo
and will be an all day meeting
with many good speakers.

Dainty Baskets at Smith's.

Town Tales Tersely Told

Mrs. J. H. Neff and Mrs. Minnie
Frisbie, who had spent several
weeks visiting relatives and sight
seeing in the southern part of the
state returned home last week.

Buddy Lenox, little son of Mr.
and Mrs. L. T. Lenox is ill with
scarlet fever. Everyone wishes
him a speedy recovery and that
the other children may all escape.

Walter Hulsman of Stanford, a
Campbell boy, won the Frosh
pole vault Tuesday from Califor-
nia setting a new freshman record
of 12 feet, 3 inches in the annual
contest.

L. M. Beal arrived home Wed-
nesday evening from his vacation
and visit through the south. Mrs.
Beal and Mrs. Evans remained
for a few days longer visit at
Modesto.

Two "bright light" electric
signs have been put up on the
business streets of town this
week which not only brightens
the avenue but shows the enter-
prise of our business men, Victor
Holmes and Edward Sylvester.

Monday, April 19th, the Los
Gatos History Club will give an
exchange program for the Coun-
try Woman's Club. It will be an
open meeting and guests will be
welcome. Mrs. Sanborn Young
is to have charge of the program.

Mrs. R. Alison and Mrs. E. R.
Kennedy left Wednesday after-
noon for Santa Cruz, where they
are attending the annual conven-
tion of the Sixth District Federa-
tion of Women's Clubs as dele-
gates from the Country Woman's
Club. The Convention is in ses-
sion April 15, 16 and 17 and any
federated club member is wel-
come to attend the meetings.

The sympathy of his many
friends is extended Mr. Clarence
W. Wolff bereaved, by the death
of his mother. Miss Elizabeth
Wolff passed away at the home
of her son in New York recently
and Mr. Wolff who had just re-
turned from his trip south was
summoned by a telegram. He
immediately went to the old
home at Grand Forks, N. D.,
where burial was made in the
family lot.

Tuesday evening, April 20th is
designated at the high school as
P. T. A. benefit night, when there
will be a moving picture enter-
tainment in the auditorium of the
Annex. Harold Lloyd in "Hot
Water" will be the stellar attrac-
tion with local movies showing
pictures of the high and grammar
school pupils and scenes of the
high school senior play, "Sher-
wood," together with interesting
movie events. Admission adults
25c. Children 10c.

Miss Mahan at Church Organ

Miss Louise Mahan of Wood-
side officiated Sunday for the first
time as organist at the Congrega-
tional Church. Mrs. David San-
ders, who has filled that position
very faithfully and efficiently, ten-
dered her resignation some time
ago to take effect immediately after
Easter.

Miss Mahan is a musician of
experience and has taught music
as well and the music committee
was very glad to secure her ser-
vices.

Less Klondike Gold

In the Klondike district of the
Yukon territory, northwestern Can-
ada, gold was discovered in 1896.
The new goldfield proved to be one
of the richest in the world, and for-
tunes were obtained from placer
mining. During the past ten years
production has greatly fallen off, but
hydraulic mining is still carried on
by mining companies.

Hog Fasts Two Months

A prize hog on the Jennings farm
in Maryland disappeared during the
threshing season and two months
later the family dog had made curi-
ous and frantic efforts to dig into a
straw stack. The hog was found,
very thin and weak, but still living.
The animal had been covered with
straw while rooting around during
the threshing operation.

C. D. Cutting Passes

C. D. Cutting, the patriarchal
head of five families in this vicin-
ity, passed away early Saturday
morning at his home on Harrison
Avenue, at the age of ninety-one
years and nine months.

His boyhood was spent in New
England, and the most active part
of his life in Iowa. In 1893 he
brought his family to California,
and has lived in Campbell the
greater part of the time since, al-
though a few years were spent in
Palo Alto, Pacific Grove and So-
quel.

The deceased was born July 10,
1834, at Haverill, New Hamp-
shire, the youngest of nine chil-
dren of Abijah and Pamela Cut-
ting. He attended school in the
winter terms and aided his father
on the farm until 16, when the lo-
cal schools could carry him no
further. At the end of a year he
rented a farm in his own name,
and took his father and mother to
live with him. After renting sev-
eral farms in New Hampshire,
Vermont and Massachusetts, he
went west to Iowa at 20, taking
his parents, and again renting a
farm. Later he home-steaded in
Iowa.

He was married to Mary St.
John in 1863, and a son was born
in 1865. His wife died four years
later. For years he took an ac-
tive part in the Congregational
church work. In 1870 he married
Anna Bourne, a young school
teacher.

Throughout his life Cutting
was in the forefront of agricul-
ture development in his section,
using the newest labor-saving
devices, practicing judicious crop
rotation and raising splendid
breeds of stock. He served for
some time in the Iowa state legis-
lature. Later he took part in the
Gleason expedition which discov-
ered the sources of the Mississippi.
In 1892 he visited this coast,
locating at Campbell in 1893. For
ten years he lived here after
which he resided for a time at
Palo Alto and Pacific Grove, re-
turning here again in 1920.

Mr. Cutting is survived by his
widow, Mercy Anna Cutting and
five children, William, Francis,
Charles, Theodore and Dr. James
A. Cutting, by eight grandchil-
dren and one great grandchild.

His last illness was but for a
few days, and was unaccompa-
nied by severe suffering. His long
life ended with the peace which
his merits deserved.

The funeral services were held
in the Melvin Funeral chapel at
Los Gatos, Monday afternoon,
and interment was at the Los
Gatos cemetery.

Rev. W. E. Eckles conducted
the services assisted by Rev. B.
St. John of Woodside, whose ac-
quaintance with the deceased
dated back to pioneer days in
Iowa. He said in part:

"I have known Charles Cutting
for more than sixty five years,
and I never knew him to do a
mean thing. His was a strong
character, physically, mentally,
and spiritually. He had strong
convictions, and was always
ready to express them freely and
emphatically, but never in a spirit
of intolerance. Holding firmly to
his own ideas, he granted others
the same privilege.

"The hospitalities and comforts
of his home were freely given to
those who needed care. He cared
most tenderly for his father and
mother in their declining years. A
sister and a brother spent their
last days with him. My own fa-
ther and sister were in his home
for several years—the former, a
helpless invalid.

"His vital Christian faith was
the secret of his worthy life. He
was an active church worker,
Sunday School superintendent,
trustee and deacon. He loved
the prayer meeting and never fail-
ed to attend when possible, often
walking two miles after a hard
day's work to be present at the
mid-week meeting.

"His was a long, useful, and in
every way a worthy life. What
a precious heritage he has left to
his family, church, community,
and, up to the measure of his
ability, to the world."

W. Denhart, S. N. Hedegard,
E. F. Smiley met at Los Altos
Wednesday to formulate plans for
entertainment of the national Ed-
itorial Association by the Consoli-
dated when they make their north
state junket this summer.

SMITH'S STATIONERY STORE

Mining with a road scraper is Cali-
fornia's latest style of mineral pro-
duction, introduced on a very small
scale, to be sure, by Walter S. Hart-
wick, in charge of street improvement
work at Jackson, Amador county.
Cutting a new street in the "Skunk
Hollow" section Hartwick is report-
ed to have unearthed gold quartz
valued at \$25.

"California now has 14 per cent of
all the crippled men and mentally de-
ficient relics of the world war, and
17 per cent of all the tubercular pa-
tients within its borders for treat-
ment and hospital care," stated Allen
Bixby of Pasadena, commander of the
Department of California for the
American Legion.

A combination of a number of the
largest rice growers in the United
States, whereby immense interests
will be joined for the production of
rice in Colusa county, was revealed
recently when articles of incorpora-
tion for a company known as Houx
Brothers, Inc., were filed with Secre-
tary of State Frank C. Jordan.

Vineyardists of the Florin section
are urged by the farm adviser of
Sacramento county and experts of the
state department of agriculture to
spray their vines immediately as a
means of eliminating the thrips which
have been found in vast quantities in
practically every vineyard of the sec-
tion.

C. C. Young Talks To Traffic Men

Members of the Peace Officers Asso-
ciation of the Coast Counties of Central
California held a business meeting and
luncheon at the Casa del Rey, Saturday.

In the morning the Justices of Peace,
Sheriffs, and Traffic Officers of this sec-
tion met in the Sun Parlor at the Cas-
ino and were addressed by Lieutenant
Governor C. C. Young, on problems con-
fronting the Peace Officers. At noon
a luncheon for the members and their
wives was held at the Casa del Rey,
following which the ladies were taken
on a sightseeing tour of various points
of interest in and around Santa Cruz,
ending up at the Santa Cruz Golf and
Country Club, where tea was served.

Auto Tragedies Increase as Other Travel Is Made Safer

WHILE railroad tragedies and street car accidents in the United States have gradually been diminishing in the last ten years, the annual toll exacted by automobile casualties is steadily mounting, says the Stewart-Warner Safety Council for the prevention of automobile accidents. Railroad accidents have been cut more than one-third, or from 12,520 in 1913 to 8,078 in 1923, the latest government figures available. Street car fatalities also have been cut down one-third or from 3,080 in 1913 to 2,006 ten years later. Automobile deaths, on the other hand, have increased over five-fold. Against the 3,822 deaths in 1913 we have 16,452 in 1923, and the score is growing each year.

Care, more care and still more care, is the solution of this national problem. The pedestrian must be always on the alert and as spry as a kangaroo, if he is to keep out of harm's way, and the driver for his part must never relax his vigilance for a moment when human lives are at his mercy.

A daily cut of 500,000 feet will be attained by the Hutchinson Lumber company, at Oroville, a night shift having been put on at the mill April 1.

Ranchers in the Bloomfield section, Sonoma county, have contracted with the Santa Rosa pickle factory to grow cucumbers for the factory.

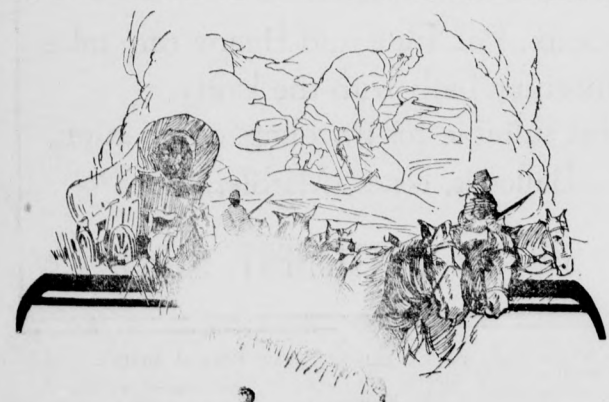

Work has started on the first of the ditches which will form the distribution system of the Nevada Irrigation district in Nevada county.

The apple trees in Sonoma county began blooming eight days in advance of last year. Information on the comparative bloom periods of fruits in the county, compiled by the county horticulturist, shows that pears this season are four days in advance of last year and pines six days ahead of the 1925 period.

As a result of several meetings held recently by peach growers of Sutter county, a committee has been appointed to arrange for a county-wide meeting of the growers to discuss a proposal for a new price for their product from the canners.

That the brand records of the cattle protection service of the state department of agriculture are valuable to the cattlemen is evidenced in information received recently in Sacramento by the department officials that the registered brands helped to trace 298 Arizona cattle which had been stolen.

Because of the decreased acreage devoted to the pea crop in southern Alameda county this year, Washington township farmers will receive top prices for their product, in the opinion of growers. The green pea crop will average more than half of last year's total, it is believed.

"Westward Ho!" and the 49'ers in their covered wagons moved on—in a quest of better things—onward to the sun setting in the Pacific.

They—gifted with faith and confidence—paved the way for a development now enjoyed to a greater extent in California than elsewhere.

Thru business initiative the development of Hydro-Electric energy in this state has been financed and perfected most extensively—and service is available at a decreasing cost, within the reach of all.

EXPOSES WILES OF FAKE STOCK SALESMEN AND PROMOTERS

Latest Methods of Confidence Men Described by American Bankers Association Official—Declares That Shrewder Schemes Than Ever Before Are Taking Peoples' Savings.

By W. R. MOREHOUSE,
Public Relations Commission, American Bankers Association.

ARTICLE NO. I

MUCH of the distress of many people in America today is due, not to the fact that they have not had an opportunity to earn and save money, but to the fact that they have lost their savings in fraudulent schemes of one kind or another. Many a widow is in financial difficulty not because she was left penniless by her husband but because she lost her inheritance by investing it in "gold bricks." Many a bank depositor who once carried a fine balance is penniless today not because he did not know how to save but because he did not know how to invest.

Perhaps if I relate some wild-cat promotions that give an insight into the activities of investment sharks it will quicken a relentless determination to provide depositors with much needed advice in investment matters. I have come in personal contact with many cases, some of them almost unbelievable because of the very crookedness of the schemes to defraud, yet thousands of our hard-working savers have been led to invest their savings in these promotions. In giving the high

lights of certain cases I am not drawing on my imagination in the least, nor am I relying on hearsay, but giving first-hand information.

Unbelievable but True
Many millions of dollars have been lost in oil. The sum is staggering. Into every corner of the United States the mails carry high-powered sales talk of great riches to be made in oil. Carried away by these promises, depositors quietly withdraw funds from their banks and send them on to wild-cat speculators. Not one out of a hundred has ever recovered the money he invested. Still wild-cat promotions continue to flourish, with a new crop of victims coming up to take the place of those who are forced out of the

The Fake Oil Stock Sale Was Opened With Prayer

running because they have already lost their savings.

Listen to this one! It is a typical case. A tract of land, just ordinary land, nothing about it to indicate there is oil beneath the surface. An oil rig, a few tools, half a dozen strings of pipe are close at hand. A large show tent filled with chairs that will seat several hundred people. It is 10 a. m. The sun is shining brightly, and it is a glorious day.

Presently several large busses draw up loaded with people ranging in age from fifty years to eighty. A corps of high-pressure salesmen rush out to greet the arrivals and to assure them that they are most welcome to what will be the next great oil city of America. The aged and feeble minded are tenderly conducted to comfortable chairs under the big tent. In plain view of those seated as they peer out through the flap of the tent stands majestically the oil rig spattered with crude oil and nearby is the big oil sump also filled with oil. Through an ingenious circulating system oil from the sump flows into the well and back into the sump through a pipe in full view.

Religious Revival Methods
Presently the official lecturer calls the meeting to order. The impression he creates is that he is either a minister or has studied for the ministry. He opens the meeting with prayer for the success of the venture in oil. After prayer this sanctimonious gentleman tells how he has invested all of his own earnings and all of his children's savings in the venture, so confident is he that it is to be an oil gusher and all are to be made rich.

He charms his audience with his oratory. He impresses them with his honesty. He calls their attention to oil in plain view, intimating that it is from the well. And while he is painting before them, figuratively speaking, luxury and old age comforts if they invest in the "A-A" Oil Company, the foreman of the rig rushes in, his clothes spattered with crude oil. He is excited and almost out of breath as he reaches the sanctimonious lecturer. A few words are whispered. The lecturer's face registers at delight at the news. He turns to his audience, a smile of vicarious triumph on his face. The foreman rushes

on down!" shout the salesmen almost in unison, followed by cheers from the listeners.

The zero hour is at hand. The time has come for the high-pressure artists to sign up the listeners for units. The salesmen "hit while the iron is hot." Nearly every listener is signed up. The few who hesitate are forgotten only momentarily.

One by one these old people, under the spell of being rushed into the deal, pay over their cash, sign notes or turn over good securities for units in the "A-A" Oil Company.

This picture of an oil speculation may seem too crooked to be true, but it is a real story of how thousands of savings depositors, all past the age of fifty, lost over half a million dollars. This story is one of many hundreds that might be told, all of which have ended disastrously for millions of investors.

Article II will reveal further fraudulent schemes for robbing workers of their savings.

Truth and Advertising Have Made America Great

Truth in news columns and advertising is the foundation of America's prosperity, Melvin A. Traylor, Second Vice President American Bankers Association, recently said, adding: "Continuance of our prosperity rests chiefly upon continuation of the greatest of all causes for our present good times—truth in news columns, truth over the store counters and truth in advertising. World-wide acceptance of great discoveries and inventions has been due to the fact that the newspapers truthfully described them and the manufacturers truthfully advertised them. If deceit had been the general rule, if the motto had been 'sell quick and let the buyer beware,' the public would have turned against the new things. I recall one particularly large firm which three years ago began advertising its wares falsely; it is today hopelessly bankrupt.

"Wise advertising costs nothing. You have only to increase the sale of your products to the point that covers the advertising charge to enjoy the enlarged business without cost. The natural saving in overhead is extra profit for dividends or for further expansion."

NOTICE OF TIME OF HEARING

In the Superior Court of the State of California, In and for the County of Santa Clara.

In the Matter of the Estate of Charles D. Cutting, Deceased.

Notice is hereby given that a petition for the probate of the Will of Charles D. Cutting, deceased, and for the issuance to William C. Cutting and Francis H. Cutting of Letters Testamentary, has been filed in this Court and that Friday, the 30th day of April, A. D., 1926, at 10 o'clock A. M. of said day, at the Court room of Department No. Two of said Court, at the Court House, in the City of San Jose, has been set for the hearing of said petition, when and where any person interested may appear and contest the same, and show cause, if any they have, why said petition should not be granted.

Dated April 13th, A. D. 1926.

HENRY A. PFISTER, Clerk,
By W. Denker, Deputy Clerk.
(SEAL)

Bohnett, Hill & Campbell,
Attorneys for said Petitioners.
(First publication April 16, 1926.)

SAFER FOR EGGS TO TRAVEL THAN STAY AT HOME

One of 509 earloads of eggs containing 264,041 cases, shipped from the Pacific Coast points to New York last year, only 267 cases were damaged.

Whether more eggs are scrambled in freight cars than in kitchens is no longer debatable, for now eggs can be packed so securely that nothing short of a wreck will break them in transit.

This "hard-boiled" method of packing was devised from suggestions made by railroad freight handlers to alter egg container specifications, according to freight claim officials to the Southern Pacific. Heretofore eggs had to be handled like soap bubbles and were the bane of claim agents.

The improvement in the containers, it is said now permits New York to have its chicken yard on the Pacific Coast.

The total number of revenue passengers carried by the railroads in 1925 was 886,650,000, as compared with 931,281,000 in 1924 and the passenger revenue amounted to \$1,055,273,357 as against \$1,075,883,951 the year before.

An interesting feature of ranch development in the foothill district of Tulare county, this spring is to be seen on the Charles F. Palmer place, near Springville. Palmer is engaged in setting out grape vines, of the lady finger variety, along his fences in such a manner as to form enough to train into the proper shape. A vineyard, containing assorted varieties of grapes, is already in bearing on this ranch, and adds a pleasing display of fruit to the Palmer concession stand each summer.

A large acreage about China, San Bernardino county, has been planted to potatoes this season and conditions are favorable for a bumper crop, ready to be dug about July 1. Beets, carrots, turnips and some asparagus are on the market from local truck ranches, and the farmers have recently been planting sweet corn. Apple trees are well along with their blooming and have not been harmed by frost. It is the plan to dry most of the local 'cots this year.

Further steps to increase the value of herds in Tehama county were taken recently when the farm adviser ordered a bull for A. E. Stophar, Cottonwood dairymen, from the Valley Gem Guernsey ranch at Arlington, Washington. This bull, it was stated, has an exceptionally good butter fat record, as his seven nearest dams have averaged 700 pounds of butter fat each a year. He declares it will be one of the best bred Guernsey bulls in northern California.

Offering a course in subtropical horticulture Prof. Robert W. Hodgson of the college of agriculture of the University of California will teach what is expected to be one of the most popular courses to be given at the summer season of the citrus experiment station of the university at Riverside.

Encouraging reports for four northern California counties are given in the department of commerce farm commerce farm census surveys for a five-year period ending in 1925. Marked progress is shown in Nevada, Amador, Lake and San Joaquin counties.

Under the supervision of H. L. Simpson, chairman of the ground planting committee, members of the Applegate unit of the Placer County Farm Bureau cleaned up the club grounds and planted shrubs at an all-day meeting recently.

There is pasturage to spare in the Trinity National Forest. S. H. Mace of Weaverville, Shasta county, supervisor of the forest, with all grazing permits issued for the season, says there was a great shortage in the call for pasturage for cattle.

Obtaining approximately \$70,000 gross from 500 acres planted to cotton in 1925, producing a bale of cotton to the acre, Harry Kilbourne, superintendent of the Hoover Farm in Kern county, has set up another record.
